Do you ever experience **something below** ?

Shoulder  
Pain

Cervical  
Pain

Lumbar  
Pain

Soft Tissue  
Injury

Foot  
Pain

Leg  
Pain

## Introducing **MGICLUB TERAHERTZ BLOWER 7.0 PRO**

**Your Transformative Wellness Companion.  
Harness the Restorative Powers of Far-Infrared Energy and Negative Ions**

Whether you're seeking pain relief, increased energy, or comprehensive holistic restoration, the **Terahertz Pro 7.0** provides a potent and balanced approach to total-body revitalization. Unlock your body's natural healing abilities and experience the profound impact of this wellness powerhouse.

Indulge in the restorative wonders of far-infrared light and negative ion therapy with the **Terahertz Pro 7.0 - your transformative wellness companion.**

## **MGICLUB TERAHERTZ BLOWER 7.0 PRO**

**MGI TeraHertz Wave Therapy Blower Tera Hertz technology is the latest treatment from the world of advanced healing. Using Terahertz Waves, discovered in the 1980's to match the vibration frequency of human cells, the therapy helps blood flow with normal healthy cells absorbing the Tera Waves while dormant cells are re-activated.**

**As a result, damaged cells are repaired, leading to improved healing times in areas of trauma and leaving the patient feeling energized. Regular use also strengthens and induces the DNA organic molecules, enhancing self-repairing body cells.**

**THz (terahertz) waves are a form of nonionizing radiation and contain low photon energy, and are strongly absorbed by polar molecules such as water in both gas and liquid states. It shows the depth of Tera Hertz Wave penetration in our biological tissues.**

**The terahertz device uses frequencies that can penetrate the body up to 20 - 30 centimetres, with no negative effects.**

The advertisement for the Terahertz Blower 7.0 Pro features a central image of a woman's back. To the left, a diagram shows a silver blower emitting waves towards a cross-section of skin cells, with a blue circular icon labeled 'ION' below it. Below the woman's back, a red handheld device is shown emitting pink wavy lines, with a red circular icon labeled 'F.I.R' below it. The text 'Terahertz Blower 7.0 Pro' is written in red at the bottom of the image.

**Terahertz Blower 7.0 Pro**

All bodily cells and organs have a frequency that is measured in Hertz. The terahertz frequency spectrum resonates at the same frequency as optimum healthy human cells, generating millions of vibrations every second.

The terahertz frequency range has been identified within medicine for having a positive effect on the human body.

# HIGH- QUALITY SMART HEALTH

Stay Away from discomfort  
and Enjoy your health

## Benefits of **MGICLUB TERAHERTZ BLOWER 7.0 PRO**

1. Eliminates Unhealthy Cells
2. Activates Dormant Cells
3. Increases Self Healing Ability to the DNA Level
4. Clears Meridian and Lymph Points
5. Terahertz Improves Microcirculation of the Blood
6. Regulates Endocrine Glands & Protect our Organs
7. Removes Body Humidity (water retention)
8. Cleanses Blood Impurities

Terahertz blower 7.0 Pro wave brings a large number of negative ions to solve the excessive accumulation of positive ions and further improve the recombination ability as well as Far Infra Red to accelerate blood circulations, enhance cells recovery and detoxification

### Far Infra Red Benefits :

- Penetrates deep into the body to increase circulation and promote tissue healing
- Helps relieve muscle and joint pain by increasing blood flow and oxygen delivery
- Boosts metabolism and supports detoxification by increasing perspiration
- Can help relieve symptoms of conditions like arthritis, fibromyalgia, and chronic pain

### Negative Ion Benefits :

- Helps purify the air by attracting and neutralizing positively charged particles
- Can improve mood, reduce stress, and boost energy levels
- Enhances respiratory function by clearing the air of allergens, pollutants, and bacteria
- May help promote better sleep and reduce inflammation in the body

# Benefits

## **Combined Effects:**

- The far infrared light and negative ions work synergistically to provide a more comprehensive wellness experience
- The increased blood circulation from the infrared light allows the negative ions to be more effectively absorbed and utilized by the body
- Together, they can help reduce inflammation, improve respiratory health, boost energy levels, and support overall wellbeing

This device may promotes the regeneration of human cells, repair cells, eliminate bad and mutated cells, dredge meridians, dredge lymph, and remove cold and dampness

After the device is energized, it emits heat and light, which is rich in a variety of electromagnetic wave elements that are beneficiary to the human body and resonates with the corresponding elements in the human body to achieve maximum body metabolism

**Other brands are using  
Blue or Purple Light**

**MGICLUB Terahertz blower 7.0 using Red Light**

Red light therapy and blue light therapy are both used in a variety of health-related treatments, but they operate on different principles and target different conditions. Here are some key differences:

### ### Wavelength

**\*Red Light\*:** Typically has a wavelength of around 600 to 650 nanometers (nm). It penetrates deeper into the skin and tissues than blue light.

**\*Blue Light\*:** It generally has a wavelength of around 400 to 495 nm. It has a shorter wavelength and predominantly affects the upper layers of the skin.

### ### Work Mechanism

**\*Red Light\*:** Primarily used for its healing and regenerative effects. It stimulates cellular processes, promotes collagen production, reduces inflammation, and promotes healing. It is commonly used for skin rejuvenation, wound healing, and muscle repair.

**\*Blue Light\*:** Often used for its antibacterial properties. It targets and kills acne-causing bacteria (*Propionibacterium acnes*) and is commonly used in the treatment of acne and other skin conditions.

### ### Usage

**\*Red Light\*:** It is commonly used in skin care (for aging and damage), pain relief, muscle recovery, and to promote hair growth. It is also used in some anti-inflammatory treatments and to speed wound healing.

**\*Blue Light\*:** It is primarily used to treat acne, but can also be effective in some cases of mild psoriasis and other skin conditions. It can also be used to regulate circadian rhythms in certain devices (e.g., light therapy for seasonal affective disorder).

### ### Side Effect and Consideration

**\*Red Light\*:** Generally considered safe with minimal side effects, although some individuals may experience temporary redness or irritation.

**\*Blue Light\*:** Although effective, prolonged exposure may cause some negative effects, such as skin sensitivity or discoloration in some individuals. Caution should be taken to avoid overexposure.

### ### Metode Pemberian

Kedua jenis terapi cahaya **Merah** maupun **Biru** dapat diberikan melalui berbagai perangkat, termasuk panel LED, perangkat genggam, dan masker. Namun, desain dan teknologi mungkin berbeda berdasarkan jenis cahaya yang digunakan.

# conclusion

## ### Conclusion

In short, **red light therapy focuses more on healing and tissue regeneration**, while **blue light therapy is more commonly associated with antimicrobial properties and skin treatments such as acne management**.

When choosing a therapy device, it is important to consider the specific condition being treated and the desired outcome.

**\* The advantages of Terahertz Blower compared to other products :\***

- Using RED light, while other products on the market use blue light.
- This MGI product integrates technology that emits negative ions and far infra light (the one and only product in the world).
- Can emit more than 20 million ions per cubic centimeter (cm<sup>3</sup>).

## \* Terahertz Negative Ion Content TestBlower 7.0 Pro \*

-1 means more than 20 million negative ions are released

Free adjustment and customization

## Product Specification

Rated voltage: 220V  
Rated frequency: 50HZ  
Rated power: 750-900W  
Vertical product size: 55 \* 55 \* 370mm  
Net weight of product: 045KG  
Gross weight of product: 1.45KG

Package size: 455 \* 100 \* 235  
Body material: ABS+PC  
Packaging style: carton, leather box+carton  
Model selection: 7.0  
Product features: Compact Design, lightweight,  
Premium build quality

### How To Use :

Warm up the body. Blow step  
1 to 10, Each part for about 2 - 3 mins

 <p>Drink 2 glasses of warm water</p>	 <p>1. Palms</p>	 <p>2. Soles</p>
 <p>3. Behind the Knees</p>	 <p>4. Groin</p>	 <p>5. Armpit</p>
 <p>6. Lymph</p>	 <p>7. Upper Back</p>	 <p>8. Head</p>
 <p>9. Butt</p>	 <p>10. Blow Downwards</p>	 <p>Drink 2 more glasses of warm water</p>

## Hand Reflexology Chart

**Helps relieve pain, restore, regenerate and activate cells and nerves.**

#### **PRECAUTION :**

**The Terahertz blower is designed for intermittent use. It should not be used continuously for more than 30 minutes at a time. After each 30-minute session, the blower should be allowed to rest for at least 15 minutes to prevent overheating. Exceeding the recommended usage time could potentially damage the motor or shorten the lifespan of the device.**

## **Terahertz therapy is generally not recommended for the following groups of people:**

- 1. \*Pregnant Women\*:** The effects of terahertz therapy on pregnancy and fetal development are not fully understood, so it is safer to avoid this treatment.
- 2. \*Individuals with Heart Problems\*:** Individuals with cardiovascular problems may be sensitive to changes in circulation and heart rhythm caused by terahertz therapy, so it is recommended to consult a healthcare professional before using it.
- 3. \*Individuals with Open Wounds or Fractures\*:** Using this device on an open wound may increase the risk of infection or interfere with the healing process. Likewise, using it on a broken bone may cause additional discomfort or damage.
- 4. \*Individuals with Serious Medical Conditions\*:** Those with serious or chronic medical conditions, such as cancer, severe infections, or autoimmune disorders, should consult their healthcare provider before using this device.
- 5. \*Individuals with Skin Conditions\*:** Individuals with certain skin conditions or sensitivities may experience side effects from terahertz therapy.
- 6. \*Individuals Undergoing Certain Treatments\*:** Those undergoing treatments such as radiation therapy should avoid using this device unless approved by their healthcare provider.
